And many other disciplines.

Horslyx Balancers have been created to provide the goodness required for horses to remain in peak health.

The horse evolved to eat little and often over the day, with the main part of the diet being forage. However, today's forage is a far cry from that which our equine's ancestors would have roamed on and grazed in history. While times may have changed, our horse's digestive system hasn't, and we need to take this into consideration when planning a feeding regime, ideally keeping the principles of a diet based mainly on forage with a trickle feed supply of nutrients provided to balance the diet to keep our equines healthy. For this reason, Horslyx Balancers have been created to provide the goodness required for horses to remain in peak health.

Based at Hoo Hall in Rivenhall for over 30 years.

During that time their team has grown and developed beyond all recognition, but they have never lost their traditional values. Today, with 9 equine-only vets and 12 other members of the team - almost all of whom come from equestrian backgrounds and understand horses inside-out - life at Hoo Hall is as busy as ever.

Their reception team and offices are open Monday to Friday from 8.30am until 5.30pm, and on Saturdays from 9.00am until 4.00pm. They always have two vets on duty for emergencies at any time, providing you with the excellent service you expect from your equine veterinary practice. All their vets are passionate about their careers and have expert equine knowledge, with many years of experience between them and advanced veterinary qualifications too.

They also have a lot more equipment nowadays, to help us diagnose many conditions your horse might have from the first and only standing equine MRI unit in Essex, to state-of-the-art portable digital X-ray systems, high-tech ultrasound machines and digital video endoscopy and gastroscopy, portable dental endoscopy and shockwave therapy, full anaesthetic monitoring equipment ... the list goes on.

Importantly though, despite the huge and rapid expansion of Paton and Lee, they always manage to maintain a friendly, caring and compassionate service. The expansion will undoubtedly continue, but Paton and Lee will always strive to maintain its traditional 'family feel', so that when you have to turn to us for help it feels like you're turning to a wise and trusted friend.

# Points Structure

You have a much better chance of being crowned Codham Park's 2025 Overall Leading Horse or Pony Member if you compete in as many disciplines as you can and as often as you can as points are tallied across the board. The qualifying disciplines are.

Showjumping - Dressage - JumpCross - Arena Eventing - Arena X-Country

The two topmost scores from each discipline on any given day will be used towards calculating your overall ranking.

If you have Won a league in 2024, Horse & Rider / Pony & Rider Combination you will not be eligible to contest that same league for 2025, you can still compete at that height/class, but you will not be able to gain points. This is to encourage new grass root combinations and help with the progression of current more experienced combinations.

## Members' Unaffiliated League Points Scoring Structure

Below is an example of how points are awarded.

Whether you are in the Top 6 placings or not for League Showjumping / Arena Eventing / Arena X-Country / Dressage & JumpCross points will be awarded down the line, unless eliminated, whereas No points will be given.

Dressage / Showjumping / JumpCross or Arena Eventing if Weather Conditions Dictate

# Entries Now Open

# JumpCross

JumpCross remains without an Individual league, this is due to it being an exceedingly difficult event to run as a league due to the uncertainty of the British weather and ground conditions. You can still gain points for the overall though.

## JumpCross Scoring

Scoring of JumpCross rounds remains the same, with the lowest final time (including the added or subtracted seconds below) dictating overall position:

<b>Knock down</b>	20 seconds added to your time for each knock down
<b>Refusal</b>	50 seconds added to your time for each refusal (2 refusals and you must move onto the next fence) (Maximum 6 refusals incurs Elimination)
<b>Knock down of Joker Fence</b>	40 seconds added to your time
<b>Clearance of Joker Fence</b>	40 seconds taken off your time
<b>Rider Fall or Horse Fall</b>	Elimination
<b>Exceeding venue's allowed course time</b>	May result in elimination to enable smooth running of the competition

All the water features will continue to be optional, and competitors have the option of going through the water or bypassing via the white and red posts as an alternative.

## Dressage

2025 will continue the popular 2 day shows My Quest Team Quest / Baileys Horse Feeds Unaffiliated Dressage and British Dressage

The unaffiliated schedule format will remain as per previous seasons, all unaffiliated riders **"Do Not Panic"** all your classes and League points will remain the same and will incorporate Sunshine Tour Qualifiers
